"The pituitary transplant was a complete success, and you will be going home soon. However, I want you to call me at the first sign of a strong desire to swing from the trees and devour bananas."

Roman Catholic accounts report the third-century saints Damian and Cosmas as replacing the gangrenous leg of the Roman deacon Justinian with the leg of a recently deceased Ethiopian

DONATE AN ORGAN

AND SAVE A LIFE.

United Kingdom
Organ Donor Register

"I don't know who I am. I have a donor heart, a donor kidney,
a donor liver, a donor cornea, a donor lung..."

Walter D. Byer

ALEXIS CARREL

The new suturing techniques, laid the groundwork for later transplant surgery and won Carrel the 1912 Nobel Prize for Medicine or Physiology

Life.. Pass it on...
Say Yes to Organ Donation
