- 10.) Changes you would suggest for improving online classes (if any).
 - Using interactive apps like zoom to maintain a timetable and having a virtual viva at the end of topics
 - Live classes (video lectures)
 - I am not able to understand the concept by ppts alone. So please conduct online video lectures through zoom app so that we are able to understand the concept clearly and perfectly
 - Regular timings, advanced schedule, better test pattern. MCQ tests are good but there can be more questions. Shorter ppts and PPTs can be voiced. Doubt clearing sessions needed.
- 11.) Name any two faculty who have impressed you during online teaching.
- 12.) Your parents' opinion on online classes. (Ask Your Parents and fill)
 - They are happy with the classes
 - Happy with the exams being held
 - Online video lectures are not being taken. Our child is not getting concepts clearly. And don't conduct exams daily. These are going to stress students.
 - Its ok to conduct online classes in this pandemic situation. But we are not satisfied with online classes as fair as classroom teaching. Overall its average.
 - He is doing his homework and is spending time studying at home because of online classes.
 - To have MCQ, VIVA,

 - Can't understand pathology via ppts.
 - Interactive seesions with students in zoom call where faculty can ask us questions as well as we can clear our doubts regarding the topics...beacuse video call (zoom) would be better and more effective according to me.
 - Portion is getting completed to fast
 - It was good when we have the quiz type assessments, hope this can be considered
 - It would help if tests are not twice weekly.
 - It's good like this. No changes required
 - More Assessments should be there
- 11.) Name any two faculty who have impressed you during online teaching.
- 12.) Your parents' opinion on online classes. (Ask Your Parents and fill)
 - He is focusing on his studies despite being at home because of these classes.
 - good way to keep up with syllabus during holidays
 - It was below average
 - mandatory during these times
 - Students are occupied and instead of wasting time are learning something
 - Online classes are not at all Good as just only ppt is uploads and asked students to read
 - Making use of time and technology during this pandemic and useful for students

- 10.) Changes you would suggest for improving online classes (if any).
 - More interactive sessions for clearing of doubts.
 - Nothing...ppt and videos are good we can save and revise during exams
 - Few topics are best understood by teaching. At the same time teaching all topics is also difficult. so teaching the difficult topics or based on student request taking at least 1 class per week would be beneficial. THANK YOU. If there is a mistake please excuse .
 - No, it's absolutely fine.
 - I like conventional way of classes with bed side teaching the most, online classes are all self-taught and has many flaws which can only be corrected to an extent.
- 11.) Name any two faculty who have impressed you during online teaching.
- 12.) Your parents' opinion on online classes. (Ask Your Parents and fill)
 - If possible try to inculcate clinical vignettes in their classes as they have no clinical exposure
 - Not happy with the current plan for the amount of fees paid. Not satisfactory.
 - My father says get out of the house asap so I can go learn in class
 - It's Good. They are quite happy with the classes and assessments
 - It is inferior compared to the conventional teaching methods but during this difficult Times it is much appreciated.
 - Continue the online classes and include separate doubt clearing session .
